

City High School News

On Friday evening Mr. Ben Turner, assisted by his mother, Mrs. Ben R. Turner, entertained the Senior class of the Mt. Sterling High School and the faculty with a dinner party. After the dinner was served the guests danced and played cards. Those present were Mr. Cox, Miss Berkele, Misses Elizabeth Horton, Margaret Nesbitt, Elizabeth Coleman, Ruth Darsie, Bertha Elam, Emily Hazelrigg, Virginia Duff and Henrietta Greene and Mr. Allan Prewitt.

The hardest fought baseball game of the season was played at Winchester last Friday. The score was 8 to 7 in favor of Mt. Sterling. This Friday afternoon the boys meet the Cynthia team on the home field. This is the only team which has beaten Mt. Sterling High School this season.

Miss Edna Berkele spent the weekend in Versailles with Mrs. Bradley Bourne.

REV AMBURGEY LEAVES

Elder S. A. Amburgey, accompanied by his seven small children, left Saturday for Norton, Va., where they will make their future home with his parents. Elder Amburgey has been a resident of the Jeffersonville section for the past 36 years, and is an upright Christian gentleman, and is a leader in religious work. He is a staunch Democrat and made the race for County Jailor at the last election, but was defeated. He has many friends here who regret very much to know of his leaving the county, but wish for him success in his new home, and heartily commend him to the good citizens of Norton.

Does the New C. & O. Schedule Suit You?

In a letter to J. C. McNeal, local agent, President Stevens, of the C. & O., desires to know the opinion of the local traveling public in regard to the changes recently made in its timetable. President Stevens further states that it is the desire of the company to render the best possible service at all times and wants to know if the new change meets with the approval of the general public.

Montgomery County Instructs For Cox

At a mass meeting of Montgomery county Democrats held in the County Court room Saturday afternoon this county went on record as favoring Gov. Cox, of Ohio, for President, and endorsing the administration of President Wilson and recommended the re-election of Senator Beckham and Congressman Fields. There was a large and enthusiastic crowd present for the meeting, which was called to order by L. R. Douglas, chairman of the Democratic County Committee. Judge E. W. Senff was elected chairman of the meeting with G. B. Senff and J. W. Hedden, Jr., secretaries.

A resolution was offered by Commonwealth's Attorney W. C. Hamilton for an uninstructed delegation to the State Convention. At this juncture C. B. Patterson asked for recognition and stated to the meeting that Colonel W. P. Huntington, a close personal friend of Governor James B. Cox was present and would like to address the convention. The privilege was granted and Colonel Huntington delivered a most inspiring speech, praising the past record and marvelous ability of Governor Cox, and urging that Montgomery county instruct for him. His remarks were well received and made a strong impression upon his audience.

At the conclusion of Colonel Huntington's talk an amendment to the resolution was offered by Henry Watson, local attorney, instructing for Cox. An aye and nay vote was taken and the result was apparently so close that a division was called for which showed conclusively that there was a large majority for Governor Cox. The resolutions finally adopted are as follows:

RESOLVED, That we commend the action of our President, Woodrow Wilson, for his faithful and efficient work as Chief Executive of the Nation through the most critical period in the history of the world. Likewise do we commend our representatives in the Senate and House of Representatives, for their constant and faithful service on behalf of the people.

We further commend the candidacy of Hon. J. C. W. Beckham for re-election to the United States Senate from the State of Kentucky, and that of Hon. W. J. Fields as Congressman from this district, who by faithful service, have earned endorsement at the hands of the people.

BE IT FURTHER RESOLVED, That the following Democrats be, and they are hereby designated as delegates to attend the State Convention at Louisville, Ky., Tuesday, May 4th, and they are instructed to vote as a unit upon all questions coming before said convention and for delegates to the National Convention to use all honorable means to secure the nomination of Governor James M. Cox, of Ohio, as the Democratic nominee for President.

Said list of delegates is as follows: H. R. Prewitt, J. G. Winn, E. W. Senff, J. G. Roberts, T. J. Bigstaff, James B. Clark, R. R. Hutcheson, Charles Leggett, Keller Greene, Lindsay Douglas, R. G. Kern, W. B. White, C. D. Grubbs, J. A. Judy, R. A. Chiles, C. W. Nesbitt, H. Watson, A. A. Hazelrigg, W. P. Apperson, J. T. Coons, James C. Tipton, C. C. Mc-

Overwhelming Sentiment Favors Taking a Vote

By T. W. ADAMS

In the issue of Thursday, April 29, the Advocate promised the people of Montgomery county that they should have an opportunity to vote on the question as to whether the county shall take such action as will make it certain that she shall be among the first to secure the construction of hard-surfaced, 365-day-a-year roads in accordance with the provisions of the new Kentucky Road Law.

The law points the way for incorporating thirty-one miles of Montgomery county roads as a part of a primary system of State Highways, approximating 3,500 miles to be constructed by the state, and to be maintained by the State—the cost of construction and the cost of maintenance to be paid by the State.

It so happens that previous expenditures on this particular thirty-one miles of highway have exceeded one-half of the entire sum available for the county road fund, which sum is approximately \$33,000 a year.

That, however, is not the most important phase of the situation. The immediately pressing problem is that created by the fact that these roads, notwithstanding this large expenditure, are now in a condition described by those qualified to speak authoritatively as "literally ruined." And folks are wondering whether in the coming winter these roads will be passable for what has now become the regular heavy traffic burdens they are subjected to.

When these roads become automatically an integral part of the primary system of State Highways, which they do immediately upon the completion of reconstruction by the State, the county will be relieved of the burden of this heavy annual expenditure for upkeep, and in due course the sum hitherto expended for that purpose will be available for maintaining a higher standard of roads throughout the county.

Of far greater importance is the fact that these two great thoroughfares traversing the county East and West, North and South, will then be hard surfaced, all-the-year-round roads for maximum load and maximum speed, that they will add to the prosperity of the county and that every property interest in the entire county will be either directly or indirectly benefited thereby—and of transcendent importance is the further fact that these roads will constitute the most potent factor, the only possible factor in an ultimate higher standard for ALL ROADS in Montgomery county.

It is not proposed in this article to enter into a discussion of the reasons why Montgomery county should be prepared to hasten construction of these roads nor why she should protect herself against the necessity for spending further vast sums on these roads for the kind of reconstruction that, to again quote those who speak authoritatively, "will not withstand one winter's wear." That will come when the way has been cleared for taking the sense of the people as to what shall be done.

There are in circulation certain inaccuracies as to conclusions, drawn from incorrect premises, which will be taken up and discussed in proper sequence. Likewise, in due course, we shall take note of the fact that the finite mind is heavily handicapped when using the word impossible in relation to the future. Nevertheless, that handicap will not prevent us attempting to prove to the satisfaction of the people of Montgomery county that some possible remote, very remote contingencies now being given currency are not reasonably probable. The Advocate believes, of course, that there is room for honest difference of opinion. It believes, of course, that we all wish to do whatever is for the best interests of Montgomery county. To that end the Advocate proposes to give a full, free and frank exposition of the question, from which the people of Montgomery county may reach a conclusion as to what is reasonably probable, and then act as conscience may dictate in the interest of the common weal.

•All about us counties are pressing forward in this Good Road Work.

Clark, Bourbon, Rowan, Carter and many others. The official record shows more miles of improved permanent type of road construction planned in Kentucky for this year than all the total of that type constructed in all the years that have gone before. It is only a matter of months when a hard surface road will lead from Farmers to Ashland. In the near future the same will be true from the Montgomery county line to Winchester and on to Lexington. Bourbon is calling for bids on nine and a fraction miles from Paris to Little Rock. It does not lie in the mouth of any citizen of Montgomery to begrudge these sister counties the blessings these Good Roads will bring—but it does go against the grain to observe that they all lead AWAY from Montgomery County.

The last contract let for road work in Rowan county calls for the construction of eight and a fraction miles of Kentucky Rock Asphalt Road. Twenty years hence that same road will be serving the people of Rowan. On a stretch of Kentucky Rock Asphalt Road on the way from Louisville to Camp Knox 4,000 vehicles passed every day for two years—army trucks, caterpillars, tractors, with their heavy drags, and artillery, twenty-one ton guns. Within recent time the writer saw this road, after this wartime test, and found it in excellent condition, without a hole, without a crack. That's what Good Roads mean. Taking into consideration the difference in density of traffic, if Rowan county gets such a road, a macadam base surfaced with Kentucky Rock Asphalt, she will not have to spend a thousand dollars on it for upkeep for years.

The question is shall Montgomery county place herself in a position to influence earlier construction of some such type of permanent road than will come if she remains inactive while other counties monopolize the State's available funds for the next few years, and while projects other than Montgomery county mileage tie up the available Federal Aid.

Whether she does or does not, she will continue to pay her share of the Federal taxes from which the Federal Aid is created. She will continue to pay her one cent a gallon tax on gasoline, her horsepower tax on motor vehicles, her share of the general levy, from all of which taxes the State road fund is created.

The mill will never, etc.—and Montgomery county will never benefit from such part of her taxes paid this year as go into building roads elsewhere.

If one saw a clear road to Heaven it would be at least injudicious to stipulate that it must be paved with gold and the blue canopy above studded with diamonds instead of just stars.

Any arrangement the county can possibly make with the State under the terms of Section 11 of the New Kentucky Road Law will give Montgomery Better Roads and at Less Cost than she can possibly maintain herself during the not definitely known period she may have to wait while a benevolent state government is satisfying and complying with the legitimate claims of counties setting up the inexorable logic that the State must first help those who help themselves.

Seeking conferences with and expression from many citizens in different sections of the county, all of them heavy taxpayers, the Advocate has found an unqualified and overwhelming sentiment in favor of taking the sense of the people of the county upon this question.

JEFFERSONVILLE SUNDAY SCHOOL ORGANIZED

Sunday school, recently organized at Jeffersonville, was led Sunday by J. T. Coons, of this city, with W. C. Hamilton, J. P. Sullivan and R. H. Dale assistants. The men's class was taught by Rev. E. E. Dawson, of Salt Lick, the Woman's Class by W. C. Hamilton and the Junior Classes were taught by Misses Eliza Harris and Ethel Baker. The Sunday school was largely attended and much interest is being shown in the movement.

State Convention Meets in Louisville Today

The Democratic State Convention will meet in Louisville today and although at the various county conventions held throughout the State Saturday indicating clearly that Governor Cox, of Ohio, is the choice of a majority of the voters of this state, a fight is likely to be made for an uninstructed delegation. Louisville politicians strongly favor such a move, and as they are quite a power, their opinions will probably be expressed on the floor.

Congressman W. J. Fields, the gifted Congressman from this district, is the favorite of the Cox men for permanent chairman and will likely receive the honor. Besides Senators Beckham and Stanley three women are mentioned for delegates at large to the National Convention at San Francisco—Mrs. Cora Wilson Stewart, Frankfort; Mrs. S. F. Petter (formerly Mrs. John C. C. Mayo), Ashland, and Mrs. J. Campbell Cantrell, Georgetown.

Refused New Trial

Judges of the Court of Appeals will decide whether James Welch, convicted of the murder of J. T. Thomson by a jury in the Fayette Circuit Court and sentenced to life imprisonment on April 11, shall receive a new trial, and his case again reviewed by the Fayette Circuit Court. Welch failed in his attempt to obtain a new trial in the Fayette Circuit Court Saturday morning when Judge Charles Kerr overruled the motion of his attorneys asking that he be granted another trial. The motion was submitted to the court without oral argument by W. C. G. Hobbs, attorney for Welch, and was immediately overruled by Judge Kerr.

GOOD STOCK COMPANY

The Anderson & Gunn Stock Company, showing at the Tabb all this week, is a well balanced organization, and their initial presentation Monday night, "A Girl From Wyoming," was well received by a large audience. The play was clean throughout, the costumes were new and attractive and the settings were all that could be desired. The vaudeville stunts were especially clever and received much applause. The company will be here every night this week with a matinee Saturday. There will be a complete change of program for each performance and for an evening of real enjoyment, we recommend the Anderson & Gunn Company.

ASHES INTERRED HERE

The ashes of Miss Olive Wood, who died in January at Pasadena, Cal., were brought to this city Saturday and interred in Macphelah Cemetery yesterday. Her brother, Stanley Wood and Mrs. Wood came from Cincinnati to be present at the burial.

See our new brown and white ribbon ties at R. E. Punch & Co.

Cox Sweeps Kentucky

A victory for Governor James M. Cox and a unified Democracy are the outcome of the county mass conventions held throughout Kentucky Saturday.

With 103 counties reported giving Governor Cox 1,279 delegates, with 1,124 uninstructed, 194 of whom are committed by resolutions of the several county conventions or by personal inclination to the Ohio Governor—his victory is assured.

The Ohio chief executive carried the First, Sixth, Seventh, Eighth, Ninth and Tenth districts. That the Fourth and Eleventh districts should be in the Cox column is indicated by the number of instructed delegates and the additional delegations who were elected simultaneously with the passage of resolutions endorsing Governor Cox for the Democratic Presidential nomination.

The State Convention will have a voting strength of 2,705. Senator Camden declared that Governor Cox will have not last 1,800 votes at the convention.

BRIXMENT

Is the most convenient as well as the strongest, most plastic and most economical mortar material on the market since it may be mixed where it is to be used as the work progresses.

The Monarch Mill Co., now constructing a building on Locust and Maysville streets, know of the good qualities of Brixment and have purchased of the Mt. Sterling Commission and Storage Co., a car of same.

UNIVERSITY GLEE CLUB WILL BE HERE FRIDAY

The Women's History Club has made arrangements to have Professor Carl Lampert, violinist, and the University Glee Club on Friday evening, May 7th, to supply a musical program, taking the place of the concert formerly announced for April 23rd.

Professor Lampert's pleasing personality and skill as a violinist have made him a general favorite in musical circles and his many admirers in Mt. Sterling are delighted to have this opportunity of hearing him again.

The Glee Club is doing unusually fine work this year, so a delightful evening's entertainment is assured. Holders of tickets to the Jules Falk Concert will be admitted on same. Price for tickets at the door, 50c. Immediately following the program the junior department of the club will entertain at an informal reception in honor of Professor Lampert and the members of the Glee Club. All members of the junior department are cordially invited to be present at this reception.

Defects in Children

There should be no defects in children. If there are defects it is a crime to permit them to remain. In this modern age there is no excuse for neglect in this respect. I have heard that spinsters are always ready to tell mothers how children should be brought up. You will not be surprised, then, when I say that I am going to deliver this beauty talk to mothers — young mothers — with young children. Young mothers, themselves, are usually perfectly lovely. They need no additional beautifying. But a few timely suggestions on how to make their children beautiful may be of value.

The subject was suggested to me by a young man. He was one of several persons I have met during the past year who has grieved and suf-

fered as a result of maternal neglect and ignorance. No parent has a right to permit a child to grow up with wide, outstanding, unlovely ears when a little care will do much to remedy the disfigurement. No parent has a right to permit a child to grow to maturity with protruding teeth, crossed eyes, mis-shapen head, bowed legs or any other disfigurement or abnormality which may be corrected by home care or medical treatment.

One of the persons I have in mind is usually described as "chinless." Of course mental endowment, this young man manifested, even in childhood, every indication of genius. His apparent disfigurement, however, made him unpleasantly conspicuous. His features were a subject of comment. Older people tactlessly ignored his presence when in conversation with one another.

"What is the matter with that child's chin?"

Often he had heard that question asked. It touched him. He became shy and self-conscious. Naturally sensitive, he brooded over what he considered his homeliness. He envied others who were far less handsome

than he, despite his small defect. In his mind the defect was magnified. Even his mother never dreamed how many tears her little boy shed nor how many hours he lay awake at night, brooding over his affliction. He was chided for sullenness, called stupid and contrary, even punished, for moods and acts which, had people but known, all had their origin in the fact that his face differed in that one respect from the faces of his schoolmates.

At the earliest opportunity he accepted work in a distant city and there consulted a dentist. To the latter he explained that he wanted his upper teeth pulled back to meet those of his lower jaw.

"Impossible," the dentist replied. "Your upper teeth are properly placed and your lower jaw is properly formed. There is absolutely no deformity. You have a perfectly strong, well-shaped chin. The only trouble is that your lower jaw sets back a little farther than the upper. The ordinary observer does not take that into consideration and says you lack a chin."

"But I want something done to remedy the defect," persisted the youth.

"It is too late, now," was the discouraging answer. "The defect, which is very slight, should have been remedied when you were a baby. Then your lower jaw could easily have been pulled and massaged gently forward into place. It is a great pity it was not done. Your mother should have given it attention."

Let that be a lesson to other mothers.

A very different case in point and from which another lesson may be learned was that of the woman whose first baby, born when she, herself, was but eighteen years old, was what now would be termed "an incubator baby." He was so tiny that for two months his mother cared for him on a pillow and his father was afraid to touch him. But during all those weeks his mother never neglected to

The New Way To Put Iron in the Blood

The highest medical authorities have always taught that iron was the best tonic for the blood and all agree on its great medicinal value. The trouble is that many pills and tonics said to contain iron are not to be relied upon. So that those who wish to take iron as a medicine may have a reliable source of information this announcement is made.

Quick Results Noted

The new way to restore iron to the blood—the surest and most dependable of all methods—is through the use of Acid Iron Mineral. This is a natural form of soluble iron—it is not prepared artificially by chemists like most

medicinal iron, but is found in Nature itself, combined with other highly beneficial remedial agents. The story of the discovery of this new form of iron reads almost like a fairy tale and medical science has proved in thousands of cases its remarkable blood-making powers.

Acid Iron Mineral may be procured in liquid form at any drug store. It contains no alcohol or injurious drugs and will not blacken the teeth. It has been especially noted that pale, puny children, weak, run-down persons and those enfeebled by age show improvement and exhibit increased strength almost immediately after starting treatment.

For sale by R. H. White Drug Co.

Dalton ADDING-CALCULATING MACHINE

Every Office Employee can and will use a 10-Key Dalton

Time is the most precious commodity of any office. Figuring machines should be purchased that can and will be used by every one.

And unless a machine invites use thru its simplicity, it will not be used. In the branch offices of the biggest corporations, like Goodyear, 10-Key Daltons are being installed because clerk after clerk uses it during the day.

The Dalton invites use. Executives use it who would ordinarily hesitate to approach a figuring machine. Employees like it because it relieves them of mental effort, such as column selection.

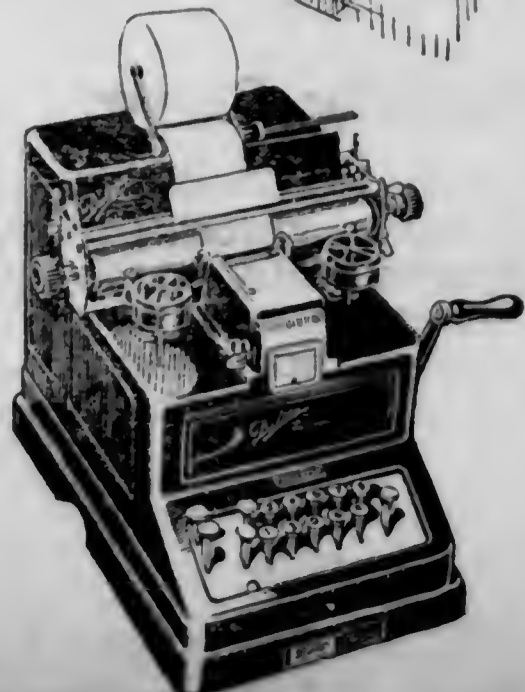

It is a better investment for any office because it is simpler in construction and operation, and because it combines a mechanical calculating brain with an adding and listing brain. Fastest adding-multiplying machine made. Make a test.

Phone for Demonstration

The demand for Daltons today exceeds the supply although we have doubled and tripled our production. This is simply the result of the business world knowing the Dalton better, understanding its greater efficiency and broader figuring service.

The Mabley and Carew Co.

CINCINNATI'S GREATEST STORE. FOUNDED 1877.

CINCINNATI is Captivating

That's what Charles Dickens said of Cincinnati when he was here many years ago. He liked it so well he came back again!

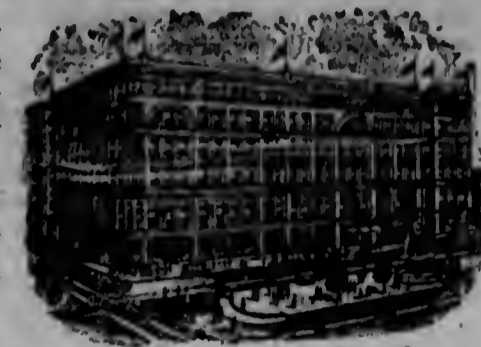

He was particularly struck with the "wonderful hospitality" of the people here.

That was many years ago, but our hospitality hasn't changed any!

You will say we are "captivating" and "wonderfully hospitable" also, after you have spent a time with us. There are many more interesting and beautiful sights to see now than there were in Dickens' time. He didn't see any Zoo, for instance, or Art Museum or Rookwood Potteries, or Union Central Building.

All Dickens saw and much more is waiting for you now. Come and see "Captivating Cincinnati!"

Dickens was Right!

Mabley & Carew — One of Cincinnati's Landmarks

One of the Foremost Stores in the Country

Known as one of the landmarks in Cincinnati.

Located on historic Fountain Square, the center of the activities of

the city in a building containing 140,000 square feet of floor space.

The display windows are the most attractive.

The interior of the store is filled with choice merchandise.

Best of all The Mabley & Carew Company policy of selling high grade merchandise at reasonable prices enables one to save considerable money on the purchases made here.

C I N C I N N A T I — O H I O

turn this little fellow every hour.

"His head was so queer and misshapen," she said, "that I really was afraid he was deformed or idiotic. The doctor told me not to be discouraged, and every day I would gently massage the little head and try to mould it into shape. I turned the baby often, so his head would be round and not flat at the back or side, and I kept a little cup on him to keep his ears from standing out too far. Don't you think I succeeded well?"

The question was asked as a tall, handsome, young man entered the room. His head was well shaped, his bearing military.

"I have just finished my fourth year in the Marine Corps," he explained, roughly. "I never would have passed the physical examination if it hadn't been for mother. She is very proud of my head and ears."

His mother's pride was justified. The physician corroborated her statement. He also spoke in high praise of her common sense and devotion.

There should be more mothers like her.

If your child shows any sign of defect, remedy that defect now. Don't allow an impediment of speech to remain. Stuttering and stammering are no longer excusable. There are so many good methods of overcoming both that both are rapidly becoming extinct. See that throat and nostrils are open and the articulation good. See that the teeth grow straight, that eyes are not strained and that older children do not force your child to run and walk at an age when its little legs will become bowed. Dancing lessons and physical culture give ease and grace to awkward, self-conscious youngsters. The present system of teaching folk-dancing in the schools is splendid.

Perhaps you do not know that with a very little care you can mould your child's nose into almost any shape you wish. Just a slight and regularly applied pressure is all that is necessary. Little by little the daily

massage and pulling will have its effect.

The mouth, too, can be enlarged or improved according to the degree of care or lack of care given. Children should not be permitted to form habits of grimacing and wrinkling their faces. I know a woman whose knuckles are disproportionately large, simply because she had a habit in childhood of "cracking" them by pulling her fingers until they snapped. The worst case of "turn-up" nose I ever saw was that of a girl, who, when growing, had a fashion of constantly pushing her nose upward. Some children seem possessed to squint.

Any such offensive habit should be promptly checked. Who is there who has not known pretty children whose attractiveness was completely spoiled by such habits as biting the nails, fixing the hair, drumming with the fingers, working the lips, pulling at

an ear and being soiled and untidy in their dress.

Don't deceive yourself into thinking that all these things are trifles and will, in time, be outgrown. It is true they may be trifles, but it is equally true, as somebody has already said, "that perfection is made up of trifles, but perfection is not trifles." If you want to attain perfection you must begin young and never give up your efforts as long as you live.

MAKING PIRCES HIGH

We reprint on this page today a striking editorial from Country Life. The picture of our economic situation it presents is far from optimistic. It is scarcely overdrawn. There are, of course, many localities in which the abuses, both in the matter of labor and the profiteering capitalists, are nothing like so serious. There are many wage earners whose attitude is reasonable, whose wages are moderate and who are rendering efficient service. The honest and industrious wage earners suffer with the remainder of the public from the attitude of those who will not work unless they get double wages, or who insist upon working only part of the time and in a most indifferent manner just as the merchants and the manufacturers, who are satisfied with a fair profit must suffer as the result of profiteering on the part of other merchants and manufacturers.

The elimination of the profiteer who manufacturers and sells will not of itself solve our problem, just as labor cannot of itself solve the problem. Labor can do more toward the solution of the problem, however, than any other one factor in our economic life by devoting all of its energies to the increase of production. If the men in the building trades were to resolve to work ten hours a day, six days in the week, from now until the first of October, applying their skill and their muscle to the very best of their ability, a long step toward the solution of the building and housing problem would be taken. Rents would at least be no higher next winter. There is good reason to believe they would be considerably lower. Under existing conditions there is danger that they may be higher. If we could raise the standard of efficiency and add an hour's time a day in every productive industry, the law of supply and demand would result in lower prices in many lines. As long as there are three or four families waiting to rent every vacant house, we may expect rents to soar. As long as there is an unfilled demand for practically all products, we cannot expect prices to fall.

There are few successful business

"Gosh! How my back aches!" After Grip, "flu" or colds, the kidneys and bladder are often affected—called nephritis, or inflammation of kidneys. This is the red flag of danger—better be wise and check the further inroads of kidney disease by obtaining that wonderful discovery of Dr. Pierce's, known as Anuric (anti-uric-acid), because it expels the uric acid poison from the body and removes those pains, such as backache, rheumatism in muscles and joints. Naturally when the kidneys are deranged the blood is filled with poisonous waste matter, which settles in the feet, ankles and wrists; or under the eyes in bag-like formations.

Springfield, Tenn.—"I write a few lines to say that Dr. Pierce's Anuric Tablets gave me prompt relief. I consider them a great remedy for kidney trouble. My back doesn't hurt at all and there is no burning or smarting as before. When I had used up the trial package the druggist didn't have the tablets in stock so I ordered a bottle from Nashville."—G.W. HIRAD, Rt. 4, Box 31

men who have been able to achieve success on eight hours a day. The man who starts out on eight hours a day and sticks to it will never be anything else but a wage earner. Those who are willing to work more than eight hours to employ all of their capacities, get out of the wage earning class. The man who is willing to work only eight hours must also be willing to accept a limited amount of the comforts and luxuries of life. Those who put in ten and twelve and fourteen hours who practice frugality, find it possible to accumulate something.

We will probably find that the

should not be permitted to work more than eight hours, but in those trades in which the weather conditions determine whether there is work or no work, we must find some way to take advantage of the favorable conditions, or pay the price. There are certain seasons of the year in which the planting and cultivating of crops must be done. During this season the farmer must work much more than eight hours a day. Other productive lines must learn from the farmer and take advantage of the favorable weather conditions. If we would do this just for one building season, a tremendous stride would be

The Viper Strikes

Bolshevism, rank, rotten, German-born, Bolshevism-anarchy, has again raised its head in America and sought to strike its poisoned fangs into the breast of the nation that has warmed the viper which now seeks to destroy it. Men have laughed at us, newspapers have derided us for being alarmists when for two years we have warned the country against the spread of Bolshevism. America, they said, is too free, too intelligent to be harmed by Bolshevism. Great business leaders have laughed at the

eager to starve the cities; they would gladly hear the cry of despair, gladly see death stalk through the land, gladly hear the wail of starving, dying babies, gladly see the American government destroyed and chaos take its place, if through these things they can follow Germany's example and loot others for their own profit. But as surely as Germany is paying the penalty of its crimes, so will the men suffer who are now trying to starve the country into cowardly yielding to their revolutionary threats.

The question now before America is, shall law and order and the gov-

Doctor's Patient Gains 17 Pounds

Prominent Physician Continues to Use Tanlac in Practice With Surprising Results

One of the strongest and most convincing evidences of the remarkable results being accomplished by Tanlac throughout the country is the large number of letters that are now being received daily from scores of well-known men and women who have been benefited by its use.

Among the large number that have been received recently none are more interesting than the following letter from Dr. J. T. Edwards, of Fayetteville, Ga. Dr. Edwards, it will be remembered, recently gave Tanlac his unqualified indorsement in a public statement, and the testimonial published below was recently given him by one of his patients. His letter follows, just as it was written:

Fayette, Ga.

Mr. G. F. Willis, Atlanta, Ga.

Dear Sir:

I am enclosing you herewith statement I have just received from Mr. T. M. McGough. He has sold out here and is moving to Turin, Ga. He was here this morning and came in to tell me what Tanlac has done for him. He says too much cannot be said about Tanlac. It certainly has cured him.

Respectfully,

J. T. Edwards, M. D.

Mr. McGough's statement follows: "I suffered from indigestion and could not eat anything but what would hurt me. Constipation gave me a great deal of trouble also. My symptoms were indigestion, heartburn and gas on the stomach after eating. My appetite was irregular and my food failed to nourish me. This trouble caused me to get very poor—in fact I got so thin and weak I was hardly able to go about.

"I bought three bottles of Tanlac on Dr. Edwards' recommendation and I am now feeling all right again, and am able to attend to business. I gained seventeen pounds in weight, and am doing fine. Tanlac did the work.

"I now recommend to everyone who is sick like I was and wishes to take something that will help them."

Tanlac is sold in Mt. Sterling by Land & Priest.

"Drag Illinois in Mud—Politicians' Methods Disgust Clean Men in Both Parties" runs the headline of a news story in a Republican newspaper on the eye of the Republican primary in that state. Reads as if it had been resurrected from the files of 1912.

If Ralph DePalma and Dario Resta want to get some real practice before the speed rates at Indianapolis, I would suggest that they come to Mt. Sterling and join the "Manslaughter squad" that controls Main and Maysville "speedways."

Why Suffer?

Mrs. J. A. Cox, of Alderson, W. Va., writes: "My daughter... suffered terribly. She could not turn in bed... the doctors gave her up, and we brought her home to die. She had suffered so much at... time. Having heard of Cardui, we got it for her."

CARDUI

The Woman's Tonic

"In a few days, she began to improve," Mrs. Cox continues, "and had no trouble at... Cardui cured her, and we sing its praises everywhere." We receive many thousands of similar letters every year, telling of the good Cardui has done for women who suffer from complaints so common to their sex. It should be your god, too. Try Cardui.

Do Not Buy Until You See Willys Light

WILLYS Light does more than bring city comforts within reach of country homes. It makes the enjoyment of the conveniences and drudgery-relieving advantages of electricity practical and economical for everybody now without central station service.

The perfected Willys Light embodies many exclusive advantages of vital importance to every prospective purchaser. That is why you are advised to put off buying an individual electric light and power plant until you have the opportunity to see Willys Light.

Superior in power, in quietness, in simplicity and economy of operation and upkeep, Willys Light has met with marked success by reason of its advanced features.

It is driven by an air-cooled Willys-Knight sleeve-valve engine. It is free from

carbon trouble. Carbon increases the efficiency of this quiet powerful engine, which is used on the finest motor cars. It cuts fuel cost in two by burning kerosene. It has no troublesome pumps, water tanks or radiator. It has greater battery capacity. It produces more current with equal amount of fuel. It is self-cranking, self-running, self-stopping. It is simple to operate and gives continuous daily service with minimum attention.

Those deprived of electric light and power service, can now avail themselves of its benefits through Willys Light, with complete confidence in its fitness to its purpose.

Send for descriptive Willys Light book. Territory still open for live dealers. Write for information.

C. T. COLEMAN
Mt. Sterling, Ky.

★ The Willys-Knight Sleeve-Valve Engine

eight-hour day is one of the big factors in present prices. The farmers understand that the eight-hour a day farmer cannot even be a good tenant, to say nothing of being a farm owner. There are periods, it is true, when it is impossible for the farmer to work even eight hours a day, and there are periods in which it is impossible for the bricklayer or the carpenter or the painter to work at all. There are, of course, certain classes of employment in which men

made toward the reduction of one of the necessary factors in the present high cost of living.

Dr. Lodge's quick prescription calling for a separate peace with Germany will not suit the body of the American public. But this isn't his first reversal, for he once declared there should be no separate peace.

Man finds live baby in his ear—headline. "They cease to become joy wagons."

warning, but they are no longer laughing.

The same accursed hell-born German-nourished doctrines of "might makes right" and "take whatever you want whenever and wherever you have the power," has found a fruitful soil in many dwarfed and distorted minds in America, and now we are reaping the harvest in railroad and dock strikes, and in other efforts to starve the people into submission. The men guilty of these crimes are

erment be maintained, or shall anarchy and revolution face us? To that question the nation must now give answer, regardless of the present cost of meeting the issue. "Give us liberty and freedom from Bolshevistic rule or give us death!" must be America's answer, and liberty and freedom we shall then have. Let us meet the issue now, in whatever form it may appear.—Manufacturers Record.

GOVERNOR COX THE PEOPLE'S CHOICE

The Advocate feels very much gratified that the Montgomery County Democratic Convention, held last Saturday, instructed its delegates to vote for Governor James M. Cox, of Ohio, and to use every honorable means to assure his nomination. In our opinion, Governor Cox is decidedly the strongest and best qualified man for the most coveted honor within the gift of the American people, and we believe if nominated will be returned the winner in November. The history of this popular and gifted Buckeye son since early boyhood reads like fiction, so remarkable have been his achievements. He is a staunch friend of the laboring man, likewise of the capitalist, and the Advocate indeed feels proud in the knowledge that our fellow Democrats followed its suggestion and endorsed so capable a leader, and feel confident the State Convention at Louisville today will do likewise.

STRICTLY DEMOCRATIC

The Democratic Convention, held here last Saturday, was strictly Democratic, in perfect accord with the principles contended for in the World War, the voice of the people ruling. In the language of older assemblies, "peace and harmony prevailed." After formally organizing a set of resolutions were offered, and counter-resolutions were offered and preferred, which were adopted with slight opposition, and the democracy of Montgomery county in convention, adjourned, every voter pledged to do their best to secure the nomination and election of James Cox, of Ohio, as President of the United States.

CHANGE OF FIRM

As announced in a former issue, McGuire Brothers, have purchased, invoiced and taken possession of the Variety Store stock of W. H. Wright on Bank street. We are pleased to say to the readers of the Advocate what we know about these young men, Dillard and Willard McGuire, in a business way. They are as they have been raised, gentlemen of the highest type; they are correct business men of such experience that they know how, where, when and what to buy. They pay the cash and get the benefit of all discounts, so that they can give to the people just what they want and at the closest possible price. With this knowledge and experience these young business men toss their hats into the mercantile ring and engage in business here, determined to go to the top with successful business men, realizing this attainment can only be reached by being just to all men. Their doors are thrown wide open to the public and their offerings are groceries, dry goods, notions, fruits, cured meats, glassware, hardware, queensware, men's and women's furnishings, tobaccos, confections, etc.

The trade can be supplied at The Variety Store with the greater part of their needs and a glad welcome is extended to all to visit the Variety Store.

PRODUCE REVIEW

Receipts of butter and eggs are more nearly approaching normal, but conditions are still disturbed by the transportation situation.

The butter market is easier and lower prices have prevailed in the large, consuming centers.

Egg prices during the week have been well sustained, but the market turned easier toward the end of the week. General quality of eggs is not as good as it was earlier in the month and it is expected that May eggs will go into storage at lower values than prevailed at the end of April.

Stocks of frozen poultry are much lighter than a year ago, and trade will have to make up the deficiency with fresh poultry. It is expected that values will be well sustained for the next month or two.

Live poultry prices on New York and Chicago markets have declined, due to the arrival of larger supplies, which have been held back by the transportation situation. This has been reflected somewhat, in the lower prices for live poultry in producing territories.

BARGAINS IN AUTOMOBILES

FRIENDSHIP AND BUSINESS

Every business should be and may be so conducted that it is more than mere barter and sale. The spirit of friendship may be introduced so that business becomes a pleasure as well as a necessity. It is the aim of the C. W. Kirkpatrick Insurance Agency to so conduct all its relations with the insured that confidence and friendly feeling are the foundation on which every transaction rests.

C. W. KIRKPATRICK

AGENT

FIRE, NAUL, AUTO, LIABILITY AND TORNADO INSURANCE

You Will Be Proud of This Wagon

When you hitch your team to a new John Deere wagon you can be assured that the same proud feeling of ownership will still exist even after the wagon becomes old and scarred through years of hard use.

As you use it, the fact that it is made of the best materials, that it "stands up" under severe strains, and that it pulls lighter than any ordinary wagon you ever used, will manifest itself from day to day—and you'll realize that you made a "good buy" when you got this John Deere wagon from us.

If you haven't had a John Deere Wagon, ask any user if his John Deere wagon pulls lighter than the ordinary wagon. We are willing to leave the verdict with you after you have investigated to your satisfaction.

Here are the reasons why this is a light draft wagon—the wheels carry the correct dish, the axles have accurate gather so that the wheels run straight ahead—there is no binding or dragging; all the skeins have the proper pitch so that the heaviest load is carried on plumb spokes.

Drop in at our store the next time you are in town and look at this wagon. ASK US ABOUT THE GUARANTEE.

Bruce Wood, wife and baby, of Lexington, were with Mrs. J. W. Thompson over Sunday.

Miss Lou Elliott, of Berea, who has been visiting Mrs. J. W. Thompson, has returned home.

Ewing Flynn, wife and son, of Cynthia, were here over Sunday visiting friends and relatives.

Newton Duff, and wife, Lexington, were here over Sunday the guests of Mr. Duff's mother, Mrs. Emma Duff.

Mr. and Mrs. George Hamilton are in Memphis for a visit to Mr. Hamilton's daughter, Mrs. L. W. Haskell.

Mrs. Matt Clay has returned from Woodford county, where she has been for the past week the guest of M. W. Hawkins and family.

Mrs. G. B. Senff and baby daughter, Mary Ray, are guests of Mrs. Senff's parents, Capt. and Mrs. J. H. Williams, at Spring Station.

Edward L. Davis and Miss Marian Spender, of Louisville, and Mrs. W. C. Fields, of Shelbyville, visited Mrs. J. Y. Rogers the last of the week.

Dr. M. V. P. Yeaman is spending the week in Philadelphia. During Dr. Yeaman's absence Mrs. Yeaman will be with her mother, Mrs. Anne Fishback, in Versailles.

Mrs. Dres Dressen, of Cincinnati, was here Friday to attend the funeral of her relative, Mrs. A. E. Lawrence. Mrs. Dressen was formerly Miss Idelle McKee, of this city.

L. A. Abbott, of Clear Water, Fla., son-in-law of the late T. G. Julian, was here on Saturday looking after business interests of Mr. Julian's estate, of which Mrs. Julian is administratrix.

Mr. and Mrs. Teddy Minnihan, Mrs. Sallie Welsh, Miss Margaret Welsh, Mrs. John Feehan, Miss Margaret Feehan, Miss Marie Meadows and Mr. and Mrs. W. D. Wilburn, of Lexington, and John McKee, of Cincinnati, were here Friday to attend the funeral of Mrs. A. E. Lawrence.

SOCIAL EVENTS

Entertains Club

Mrs. Percy D. Bryan was hostess to the Bridge Club Friday afternoon at her home on Samuels ave. Spring flowers were used to decorate the attractive rooms and at the conclusion of the game a most delicious lunch was served. Those present were: Mrs. J. O. Greene, Miss M. E. Turner, Mrs. A. S. Johnson, Mrs. John Speer, Miss Suzette Johnson, Mrs. John Winn, Mrs. George Coleman, Mrs. D. C. Fox, Mrs. Pierce Winn, Mrs. Robert Winn, Mrs. C. W. Kirkpatrick, Mrs. W. P. Huntington, Mrs. J. C. Graves, Miss Laura Graves, Miss Ella Priest, Miss Hattie Owings, Mrs. W. B. White, Miss Elizabeth Apperson, Mrs. W. S. Lloyd, Mrs. John Stoffer, Mrs. C. T. Hazelrigg and Mrs. Robert Collier.

WILLYS LIGHT.

There isn't a home worthy of the name, the world over, that wouldn't appreciate the benefits, comforts and economies of electricity. A few years ago only those who lived in cities could enjoy its numberless advantages. Then came the first crude little plants for individual use. Not expensive, but far from efficient and reliable. Steadily improved and perfected, they now represent the most useful and indispensable invention of the last decade.

Wilys Light has achieved the highest development, the most advanced ideas in an electric light and power plant for the farm and home. Its cost is less than half that of the medium-priced motor car. Its efficiency and dependability will satisfy the most exacting. It saves vastly more in time and labor than it costs to operate it. Elsewhere in the paper will be found an ad covering this plant.

C. L. Coleman has recently installed one of these plants in his home in Mt. Sterling and will gladly give a demonstration of it. Be up-to-date and get all the comforts and conveniences that this plant will give.

REMOVED

J. D. Wren Auto Co. have removed their work shop to the up stairs room over the livery stable opposite the garage. This gives more room for storage and display of new automobiles.

Jordon Building

Dr. Weber comes highly recommended. Below you will find some of his recommendations.

Office at Main and Broadway, Jordon Bldg., upstairs Every Monday and Thursday.

Dr. Weber is having a wonderful success in treating a great many patients for various foot troubles and is one of the very best authorities on feet.—Danville Advocate.

Sidney Dunbar, of Lincoln county, recommends Dr. Weber, the Foot Specialist.

To whom it may concern: I have suffered with my feet for years and have seen and been treated by a large number of chiropodists, but none did me any good until I had Dr. Weber. When I came to him I could not stand on my feet, but with his five weeks' treatment I am entirely free of any pain. Anyone that suffers with their feet, I can highly recommend him for his great treatment.—Sidney Dunbar, Stanford, Ky., R. F. D.

Taylor House, of Lancaster, Ky., praises Dr. J. W. Weber, the Foot Expert.

To whom it may concern: I have suffered with my feet for 30 years and with Dr. Weber's three weeks' treatment I am entirely cured. Taylor House, R. F. D. Lancaster, Ky.

W. C. Carpenter, formerly of Harrodsburg, recommends Dr. Weber.

To whom it may concern: I have suffered with my feet for over 20 years and with Dr. Weber's six weeks' treatment I am entirely cured.—W. C. Carpenter, Perryville, Ky.

To whom it may concern: The undersigned has been a patient of Dr. Weber, the chiropodist, for some time and can cheerfully say that his treatment has been very satisfactory. I can recommend him to anyone suffering with foot troubles.—Joseph S. Rice, Agent L. & N. R. Co.

To whom it may concern: We, whose names are hereto signed, have been treated by Dr. J. W. Weber, the Foot Doctor, for various foot troubles. We unhesitatingly recommend him.

Our troubles had been with us for years, we had tried various doctors, none did us any good until we tried Dr. Weber. We have no hesitancy in saying that we have been absolutely cured by his treatment.

Our troubles were such that local doctors could not reach.

We are glad to recommend Dr. J. W. Weber for any foot trouble and as all right.

BARGAINS

Don't Feed Your Profits to "Sleepers"

You are getting better prices than ever before for your dairy products—and are making loss. You blame this on the "high cost of feed." DON'T.

Your loss comes from spending the money your producing cows earn to keep free boarders—sleepers. Every cow in your herd must earn dividends these days to bring you out ahead. Cheap feed would only make matters worse. Production and quality would be lowered. You'd still have those "sleepers" to feed. Try this solution for your problem:

Give your low producers one more trial with CE-RE-A-LIA SWEETS, the quality feed with guaranteed results. There's every chance that you will build them up to money-making standard. If your record does not show marked increase in milk flow and butter fat content after four weeks' trial, sell those cows for what they'll bring. They're hopeless.

Make this trial, for one cow, without risk to you. If you're not satisfied, feed costs you nothing.

We're sure CE-RE-A-LIA SWEETS will put every cow in your herd on a paying basis. Costs little more than low-protein feed, and results make up the difference twice over. Fed with roughage, it is a perfectly balanced ration—2% protein, 4.5% fat, 50% carbohydrates. All ingredients are accredited material. Pure, palatable, cane molasses adds to its digestibility.

Farm Women Put Ban On Luxuries for Year

Forty-five women of the Church Hill neighborhood, near Hopkinsville, have organized the Church Hill Grange and Old Clothes Club with the slogan "No more silk stockings until tobacco reaches 40 cents a pound."

They also have affiliated themselves with the Christian County Overalls Club.

With the Government paying most of the freight, the demand for tickets for the Congressional "joy ride" to the Orient exceeds the supply.

FACTS and FANCIES

(By Mack)

It used to be "oh, where is my wandering boy tonight!" It now is, "Oh, where is my wandering wife tonight."

Sheriff Roberts is going to make himself very unpopular with the "wimmin folks" if he omits looking glasses and powder puffs in the voting booths.

Penal servitude is too light punishment for Newberry. He should be compelled to serve his term out in the Senate.

If any of you readers have not been present at a suffragette meeting and want to know what they sound like, I refer you to the "engine house" during an exciting game of "pitch."

After seeing several of our "Fair Sex" bedecked war painted Indians will not be an attraction for us any more.

It does look as though if they inflit water on a guy to drink, they would at least omit the mud in it.

Newspaper headline says: "Negro kills wife while she is asleep."—This should teach the "wimmin" to get a maximum silencer to prevent their talking out loud in their sleep.

Boys, don't get het up and think you have found something valuable

-like oranges? Drink! ORANGE-CRUSH

THE game over—then a quick, sure putt to a long, cold drink of Ward's Orange-Crush! Good? You bet it is!

There are few golf clubs in which Orange-Crush and Lemon-Crush are not the favorites at the "19th hole." Quality, purity and flavor have won this tribute—golfers drink only the best. There is satisfaction in knowing that all the delicious flavor comes from the delicate, fragrant oils pressed from the fresh fruits, purest sugar, and citric acid—the natural acid of oranges and lemons.

if you find something that you think are brown rocks—they are merely some of the young bride's biscuits that have been thrown away.

Perhaps the reason for Winchester falling down in her census report is that there were lots of the people who didn't want to fess up to living in such a high-priced town.

You can tell a woman her husband is a flopped hound and she will smile, but for safety's sake men, don't tell any of them that they are getting fat.

What has become of the old fashioned dry goods man that sold women's undershirts?

If it weren't for the railroad, Mt. Sterling would be as unexplored and inaccessible as the north pole. Do not miss Mr. T. W. Adams' good roads articles in this paper.

Old lady, horrified—Little boy, where did you learn all of that profanity?

Willie—At Ma's bridge party.

Aristocrat—I had a most peculiar dream last night. I dreamed I stole a chicken.

Friend—With your family tree. Why steal her?

In a straw vote at Georgetown College Herbert Hoover was the most popular presidential candidate, receiving 36 to 21 for James Cox.—Lexington Leader.

College boys will have their jokes.

I know I should be ashamed of

myself for mentioning it—but I would advise some of the women to turn the other cheek around to the glass when applying paint. Their faces remind me of the sign "before and after taking."

The new penny scales in the "Delicious cafe" are going to be powerful popular with the girls on account of the looking glasses in them.

Hoover may have the endorsement of both parties, but he has no platform like Governor Edwards—"he has something all parties want."

Dear Editor—Will ladies wear men's bathing suits this summer?—A Mermaid.

They will if they want to, the majority are wearing their trousers now.

The Louisville Times paragrapher says: "Realizing that a policeman's first aid spirits will be nothing but a

dose of aromatic spirits of ammonia Louisvilleans ought to be unusually careful about watching their step."

He was too modest to state that it would be different if the cop was a member of the G. O. P. club and Sheriff Ross was not on the scene.

"The Home of Coal"

WOMEN TO VOTE IN KENTUCKY

(Meade County Messenger)

The following editorial is from the Central Methodist, and we trust that every woman reader of the Advocate will read and "think it over."

"We see it announced that Governor Morrow has signed the bill passed at the recent session of the Legislature authorizing the votes of women in the coming Presidential election. It is a very well known fact that the editor of the Central Methodist has not been an advocate of woman suffrage. Conscientiously we did not believe it was best either for women or for society as a whole, and that it established an order of things which militates against the home. These opinions have been conscientiously held and in so holding we have

believed that we were a true friend of womanhood.

"But suffrage is here, both in the church and State. It is no longer a question of opinion, but a fact. Under these changed conditions good women must vote. It is now a matter of self-protection and of the protection of society.

"Women are not all angels, yet. There are good women and also bad women. We may be sure that the bad will be at the polls. For good women to stay away, is to turn the affairs of the country over to the control of the underworld, and the most vicious and conscienceless elements. Every good woman must vote. It now becomes her duty. If all good women of the state and nation take up this duty and stand with the good men of the State and nation, the land will be rid of many evils. Nothing else can save us from the disastrous rule of the vicious and ignorant. We appeal to every Christian woman to get ready for the performance of her duty. It will not be a pleasant duty to some, but it is a duty nevertheless. Let no good woman stay away from the polls."

The G. O. P. Congress has investigated everything but the cost of its own investigations.

WANTED, Clothing Salesman

We are looking for the best man in this city, one who has had clothing and furnishing experience, either in a store or on the road, for a responsible position in a local store, or in one of our many other stores. Write fully, stating age, experience and ability. Give five references. Address

RHEUMATISM SO BAD MRS. BLAIR COULDN'T MOVE HANDS OR FEET

TOOK REESE FORMULA, CAN NOW DO OWN WORK

Mrs. B. T. Blair, of Kitts Hill, Ohio, suffered so severely from rheumatism that at times she could not move her hands or feet. She began taking Reese Formula R-11, with such remarkable results that she can now do her own housework.

In speaking of her case, Mrs. Blair said: "I had severe pains in the back, arms, feet and limbs. Several doctors treated me without results. Finally I

began taking Reese Formula R-11. Now my rheumatism is gone, my stomach and system cleaned up, my appetite is better and I can do my own housework. I recommend Reese Formula R-11, because of its wonderful results in my case, and if my testimonial will bring relief to other sufferers, I gladly give it to you."

Get a bottle of Reese Formula R-11 today from your druggist or Wm. S. Lloyd's Drug store.

Make Your Savings Earn 6%

Why Conservative Investors, Banks and other Organizations Invest in our 6% First Mortgage Gold Bonds.

They are first mortgages on improved real estate worth 10% more than amount of mortgage. They yield 6%, the best rate of interest consistent with safety. Winchester May Lose Kentucky Wesleyan

The Kentucky and Louisville Conferences are considering the consolidation of Kentucky Wesleyan College, Winchester, and Logan College, Russellville. It is likely, if these plans carry, that the Kentucky Wesleyan plant will be offered to the city of Winchester and Clark county for a consolidated county and city high school building. It has been known in business circles in Clark for several days, says the Sun, that the Methodists of the State were considering the consolidation of the schools and that they would likely be moved to Louisville, but no reliable information as to just what action had been taken was available from any source.

"Oh, Let's Don't"

People With Thin, Pale Blood Are Listless and Want to do Little

MORE RED BLOOD CELLS ARE NEEDED

Take Pepto-Mangan, Famous Tonic, and Say "Let's Go," Instead of "Let's Don't"

When normally healthy, ambitious people begin to lack energy and tire easily—when they are quickly discouraged and low in vitality, it usually means their blood has grown weak.

Such people are called anemic, or "run-down." Build up the blood and you build up the health and spirits. Pepto-Mangan is a pleasant-tasting red blood builder and it contains exactly the elements which poor, pale blood needs to become rich, red blood.

Red blood means rosy cheeks, bright eyes, a clear brain, a firm step. Pepto-Mangan has placed thousands of people who needed building up in the full-blooded, energetic, vigorous class. It changes the "let's don't" attitude to a "let's go" attitude. Recommended by physicians for thirty years and sold all over the world.

Pepto-Mangan is sold in both the liquid and tablet form. Both contain the same medicinal ingredients.

Buy Pepto-Mangan at your druggist's. Be sure the name "Gude's" is on the package. Without "Gude's" is not Pepto-Mangan.—Advertise.

Good Behavior Means Much to Convicts

"Counting the days" until freedom will be made worth the while of the Kentucky prisoners.

A convict's conduct, industry and educational endeavor will determine to a certain extent the length of his term after May 1, under a new punishment regulation adopted by the State Board of Charities and Corrections on recommendation of Dr. Joseph P. Byers, Commissioner of Public Institutions.

The new system of "good time," as prisoners call it, is based on conduct and length of service, and is subject to forfeiture in whole or in part for misconduct. Dr. Byers' idea is to make it a method of reward and punishment and let it play a part in character building.

The new regulation is seven days the month the first year, eight the second and ten the third and subsequent years. In this way, by good conduct, the prisoner takes two months and twenty-four days off his term the first year, three months and six days the second and four months in each succeeding year.

Thus, after two years, a prisoner may reduce the remainder of his term fully one-third; or by one exhibition of lack of self-restraint lose all his "good time" and be forced to serve his full sentence.

Heretofore seven days the month has been the maximum for prisoners inside the walls and ten days for men working on the roads.

The planters raise sugar in Cuba. The profiteers raise it in this country.

Extra Tobacco Tax to Help Pay Bonus

An additional tax on tobacco will be one of the five sources of raising revenue for the payment of the proposed soldier bonus, according to Republican House leaders in charge of the legislation.

The amount of the proposed additional tax upon tobacco and tobacco products has not yet been made known.

The other sources of raising the money with which to pay the soldier bonuses, it was said, will be a tax

on sales, a tax on real estate transfers, a tax on stock exchanges and a general increase in income tax.

\$100 Reward, \$100

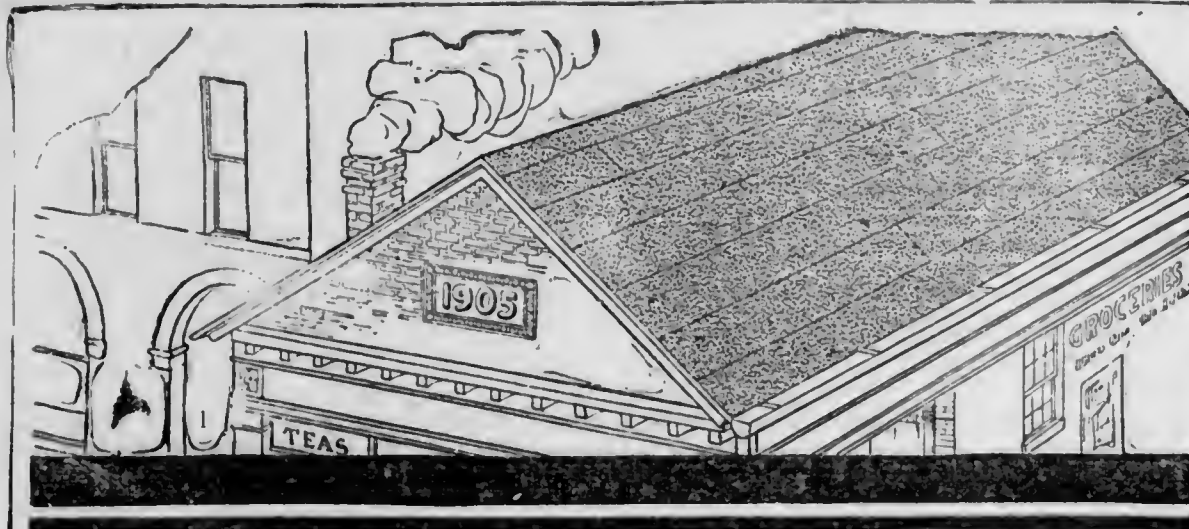

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the Blood on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative power of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, Ohio. Sold by all Druggists, 75c.

Why You Should Buy Guaranteed Roofing

When you buy roofing you want durability as well as shelter. You want to know that it will last long enough to make its average cost per year a reasonable figure.

That is why Certain-teed should appeal to you. For, when properly laid, Certain-teed Roofing is guaranteed for 5, 10 or 15 years, according to weight.

The guarantee adequately protects your investment, but it does not accurately measure Certain-teed's life. In fact no one knows just how durable Certain-teed is, because in no case has it

ever been known to wear out on the roof.

And Certain-teed is more than durable. It is weather-proof, fire-retarding and spark-proof. It effectively shelters your property.

With all these advantages, Certain-teed Roofing costs less to buy, less to lay and less to maintain, than any other type of good roofing.

See your dealer about Certain-teed. He either has it or can get it quickly from a nearby Certain-teed distributing center.

—on tire equipment—we suggest Goodyears
Because we know Goodyears will bring them back
—not for an adjustment—but for more tires when they need them.

We maintain complete stocks of Goodyear Clinchers for light cars in the smooth, non-skid and the all-weather treads.

The single cure type, anti-skid tread, in 30x3 1-2 is \$21.50, and the big, sturdy, double-cure, all-weather tread, in the same size is \$23.50.

The Peak of Tube Perfection—Goodyear Heavy Tourist

Compare these prices, and what you get for your money, with any other tire prices.

Then let us put you on the road to real tire economy with a Goodyear.

Mt. Sterling Garage

Which Will You Do?

- Will you let your funds remain idle until the trained and expert stock salesman persuades you to place them in some new and untried "security" which promises large profits in the future, but has no past?
- Or will you choose your investment advisor as you would choose your banker—one who, by years of experience, has proved his honesty and efficiency—and let him advise with you concerning your investment?
- Founded in 1872 as a private bank, this firm has a record of almost fifty years of honest and efficient service to Kentucky investors. It has become a habit with these investors to write us for advice whenever they have funds for investment and in assisting them to place these funds in sound and tested securities, we feel that we perform a real service.
- The next time you have funds for investment, write us. Ask your banker about us.
